

### Low Profile Service Disconnect with Electronic Meter Energizing

The UEA/LPSD Low Profile Meter Socket Adapter disconnects customer load but maintains power to the electronic meter. The UEA/ LPSD maintains meter reading and communications link for AMR/AMI operations while disabling the load side.

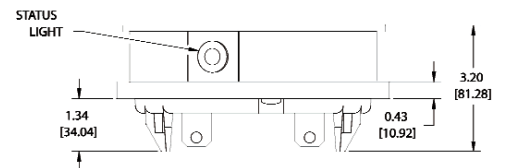

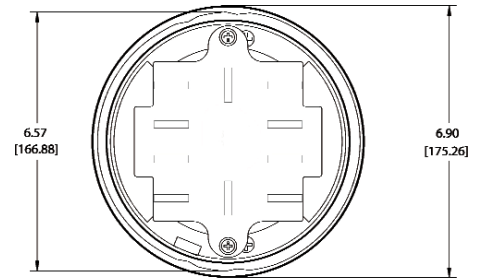

- Meets all ANSI and UL dimension requirements for meter sockets
- Meter tilt allows for Quick Visual Indication
- Fiberglass reinforced polycarbonate
- Available in a variety of colors (Blue, Black, Grey and more)
- Stand-out Dimension 1.5"
- UL 94-5VA flame rating
- UV stabilized plastic
- External ground connection
- Weight: 1.290 lbs.

#### Options

- Line Side Status Light indicates utility power present
- Load Side Status Light indicates power present by backfeed or theft
- LED color choices available for Status Lights

2S Form Shown. Call Factory for additional Meter Forms offered.

### Universal Low Profile Service Disconnect
